

Global Goodness

From the beginning, XANGO's financial donations were tied to the company's revenues, not its profits.

"We viewed it as a sort of tithe on our own company—money we don't touch," explains Founder, Chairman and CEO Aaron Garrity. "We knew that there would be extremely successful people in XANGO who would be buying their dream homes, cars and great vacations. We also wanted to create an opportunity where people can give back."

The worthy causes XANGO supports both financially and through hands-on efforts of the founders, distributors and employees are primarily tied to charities that focus on children. Since 2009 the XANGO Goodness Foundation has directed philanthropic efforts. Its flagship partners are Operation Smile and AmeriCares.

Through Operation Smile, a worldwide children's medical charity, XANGO has provided 1,700 surgeries for children born with cleft lips, cleft palates and other facial deformities. AmeriCares runs feeding programs, disaster relief and humanitarian aid in Latin America, Africa and Asia. **XANGO's involvement has helped it provide about 5 million supplemental meals to malnourished persons. The AmeriCares partnership also helps deliver distributor-purchased XANGO Meal Packs to malnourished and undernourished children and families across the world. The Meal Pack is a meal replacement program that is the first step out of extreme starvation.** It is a for-profit product with a charitable purpose, and XANGO does not apply foundation donations toward Meal Pack purchases.

But the XANGO Goodness charitable efforts don't stop there. In the United States it is also active with Best Buddies, which provides new opportunities for young students with intellectual and developmental disabilities. Through XANGO Goodness, XANGO has helped support multi-year, sustainable medical care and education efforts in Ghana and also provided disaster aid to numerous areas, such as Hurricane Rita-ravaged New Orleans and tsunami-affected Thailand.
