

AmeriCares is a non-profit disaster relief and humanitarian aid organization. They provide immediate response to emergency and medical needs as well as supporting long-term humanitarian assistance programs for all people around the world. The World Health Organization estimates that one third of the world's population, nearly 2 billion people, lacks access to essential medicines. Since their founding in 1982, AmeriCares has provided over \$11 billion in aid to 164 countries. Through our partnership with AmeriCares, XANGO has supported feeding programs through the distribution of XANGO Meal Pack, water purification, hygiene education and disaster relief in 20 countries across the globe.
